EXPERIENCE

Prosper I.T. Consulting, Portland, OR. - *Intern Software Developer*

March 2019 - May 2019

- Worked on DataScape and Construction Management applications.
- Used Agile methodologies.
- Experience in front-end and back-end stories.

PROJECTS

[Cloud the Pom](http://cloudthepom.com) - *Website (cloudthepom.com)*

Technology Used: HTML, CSS, JavaScript, and PHP.

A site created for my dog that allows me to login and upload pictures that get stored in a picture library. The home page has a carousel populated with random pictures from the picture library. The guest login is “guest” for username and password.

[DataScape](#) - *Web Application*

Technology Used: Django, Python, HTML, CSS, JavaScript, and Bootstrap.

Worked with a small team using git, and Agile methodology Scrum. [Click here](#) for a summary of the work I contributed in a two week sprint.

[Construction Management System](#) - *Web Application*

Technology Used: ASP.NET, C#, JavaScript, HTML, CSS, and Bootstrap.

Was on a team to create a web application to manage construction companies work and employees. [Click here](#) for a link to the summary of work I completed.

EDUCATION

The Tech Academy, Portland OR - *Software Developer Certificate*

November 2018 - May 2019

The Tech Academy is an intensive software developer boot camp that has over 600 hours of hands on learning. I learned the fundamentals of developing as well as some of the most common web development languages and frameworks. Some of the languages and frameworks include C#, Python, JavaScript, SQL, HTML, CSS, Django, Bootstrap, and the .NET Framework.

Central Oregon Community College, Bend OR - *Associate of Science*

September 2014 - June 2016

Went through a variety of courses during my time at this institute that included Anthropology, Psychology, Math, and Computer Science. My main focus at the time was Chemistry.
